Here is a look at some of the other programs available at Clinical Connections:

Speech Kids is the private practice of Crisler Lovendahl, M.A., CCC-SLP, a Speech Pathologist who has been practicing for more than twenty years.

Play Partners was created to foster communicative and social interaction in the home, clinic, school or camp setting via one-on-one or small group sessions with trained staff.

The Clinical Consortium is a professional collaboration located in Bannockburn which provides the opportunity for master therapists to treat in a transdisciplinary environment, thus enhancing collaboration and problem-solving.

Jam
a blended early childhood program

Designed to challenge children from 3-6 years old in a language-rich and cognitively-rich environment.

Our Program

Jam is co-taught by two early childhood special education teachers also certified in reading and developmental therapy. Speech and Occupational Therapists push in daily depending on the needs of the classroom.

Our curriculum is designed to be a blend of historically successful methodologies including: Montessori; High Scope; A Cognitive Curriculum for Young Children; Waldorf; and Reggio Emilia.

Jam (3-6)

Jam is designed to be an integrated 7 and 7 early childhood program, specifically: 7 community peers and 7 children with mild to moderate speech, language, or social delays. The curriculum fosters participation, language, creative thinking, and interaction with peers. Our philosophy is to expose children to rich materials and experiences to boost academics, language, cognition, and social competency.

A linguistically, cognitively rich, and challenging curriculum

Daily Activities

- ❖ Morning Work
